

# Oceanography Seminar

**Axel Timmermann**

Professor

Department of Oceanography

University of Hawaii at Manoa

***""Transbasin Climate Connections: Implications for  
Western Pacific Sea-Level Acceleration, California  
Drought and the Global Warming Hiatus""***

The presentation will discuss how during the last 20 years an Atlantic-driven intensification of the Pacific equatorial tradewinds caused accelerated western Pacific sea level rise, equatorial Pacific cooling, Southwestern US droughts and the slowdown of global
